VOL. XI. NO. 17.

Thou hast shown its gleams of light, Phou hast brought us hear some friends most And given us "gongs in the night."

The hours of thy life are numbered now, And we look with fond regard

On all the pleasure thy days have brought,
And forget what we found so hard.

It is ever so, when we reach the end,
And the pressure of work is o'er.

That we gather our sheaves and count our

gains.

And remember our toil no more.

We know thou art bringing us gifta, New Year Of weath, of pleasure, of rest.

And our bearts best high as thou drawest nigh,
For we hope and desire the best.
But, ah, of sorrow, of waiting, of loss,
Thou hast also a hidden store!
God strengthen is all to endure our cross,
Nor faint ere the strife is o'er!

And let us to morrow with hope begin, And fix our standard high,

And his our stantard high.

Striving to conquer the weakness and sin
That nearest our souls do lie.
And with beipful work or with kinedly though
Let us lighten each others' care.

Por Love can soften the hardest lot,
And lighten the gloom of Despair.

—Once a Week.

THE NEW YEAR.

Could we but glance the new year o'er, Its hidden depths unveil, Look on the blessings safe in store, Whose mercles never fail:

Could we but see the mappiness. The New Year seeks to give, Our daily lives to cheer and bless, How gladly would we live!

Could we behold the grief and care.
The weary, painful strife
abletted as our rightful share.
In each new year of life.
Could we anticipate the thoros

That in our pathway lie, Before the smiling New Year dawns How gladly would we diet Yet, ignorant of all, we grope

With blind persistence, on:
Upheld by patient faith and hope,
Each daily task is won;
A new year's borden unconcealed,
Our immest hearts benumb,
But surrows one by one revealed Are conquered as they come.

QUEENSTOWN, Dec. 28.—The steamilp Nordland was towed into Queenswn harbor by the steamship Ohio at o'clock last evening. All the passengers were on deck, waving hats and andkerchiefs and cheering. Anchor was dropped and the passengers were removed to shore by a tender. All showed signs of the anxiety which they had suffered. Some of the elderly steerage passengers were hardly able to walk. Several women fell on their knees and cried the moment they were landed. Frank Shea, a first cabin pasenger, now stopping at a Queenstown

hotel, told his experience.
"The first two days out of New York were fairish, although a part of the time a heavy sea was running. The weather then grew rapidly worse. On ing about twelve knots an hour. The other officers who were not busy below walked about among the passengers and encouraged all to believe that there was no danger. In a few minutes we learned that the engineers at a great risk of their lives, had found that the two stay plates and the plummer blocks had smashed the giand of the engine. The bulkhead, nowever, had been kept tight. The vessel pitched and rolled terribly, so that we saw we could not trust to the boats in case the worst

From what your correspondent could glean from the officials here it seems that on hast Friday afternoon the Mexican troops surprised a band of revolutionists in the neighborhood of Guano, Mexico, and a bloody battle ensued, lasting over one hour, the number of men being equal on both sides. There were fifty revolutionists and the same number of federal troops. A regular running fight was kept up and over five men were killed in the engagement.

It is explained that Herz got possession of documents several years ago and has since levied gigantic tribute on Reinach. The amount extorted up to the time of the baron's death is placed at no less than 10,000,000 franes. When the runnors of Panama corruption began to be publicly discussed six weeks ago, Herz is said to have made them the basis for a fresh demand for 4,000,000 franes all his evidence in two Paris news-five men were killed in the engagement.
